

Dear Pupil / Parent

Reference – Your new O2 USB Modem

As part of the “Computer for Pupils” initiative you will have now received O2 USB Data Modem. The USB Stick or Modem will allow you to access the World Wide Web through your Toshiba PC. It is imperative that this is kept in a safe place and care is taken with its use.

Website Access and Security –

We have purchased from O2 the USB Data Modem, along with Web Access, in line with their Child Safety Filtering Service. This means that as it stands at present only a select list of websites, approximately 20000, will be available for the Pupils to access at this time. This list of websites has been accredited by O2 in line with the Education Department as being acceptable for Secondary School Pupils.

Each O2 USB Modem will be “active” for a period of 24 Months. The 24 Month period is due to expire on the 16<sup>th</sup> September 2010.

The device contains the installation software and will install itself when placed in the USB port.

O2 end-user Support Team contact details for O2 USB Modem users –

Telephone Number - 0870 220 3318

Best Regards

**O2 UK (Telefónica Europe plc)**
